Designing Thoughtful Spaces

THROUGH ARCHITECTURE,
INTERIORS, AND CURATED
LIVING EXPERIENCES.

Rootsense is a story of creating timeless designs which are a blend of natural and contemporary sensibilities beyond a defined space.

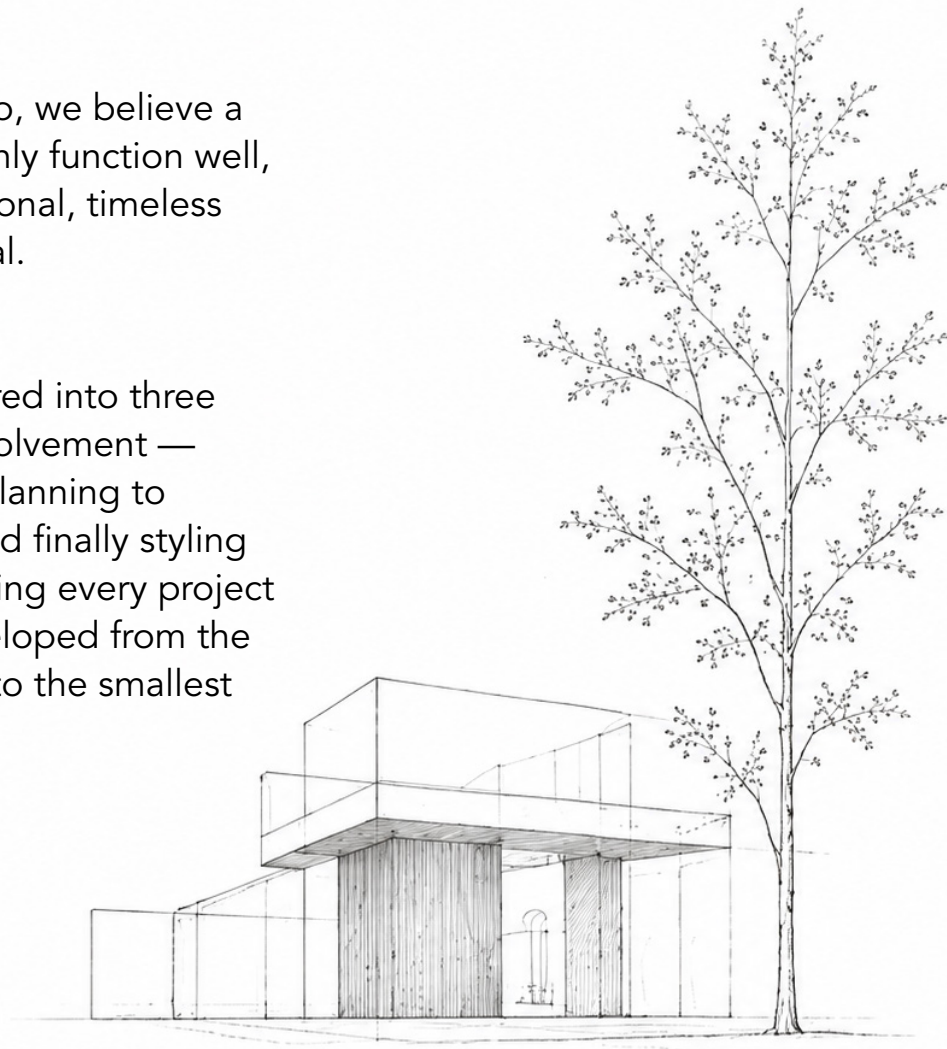

The studio’s expertise extends beyond architecture to encompass interiors and product design, creating holistic and cohesive experiences within their spaces.

OUR APPROACH

Designing Spaces Beyond Construction

At Rootsense Studio, we believe a space should not only function well, but also feel intentional, timeless and deeply personal.

Our process is layered into three levels of design involvement — from architectural planning to interior detailing and finally styling & curation — ensuring every project is thoughtfully developed from the larger vision down to the smallest detail.
